

Crushing, Milling & Stabilization

PTH Multi Crusher

The PTH Multi Crusher is unique in the segment of mobile stabilizing crushers. Breaking, milling and stabilization are done in just one operation !

With a maximum working depth of 500 mm, the machine crushes the hardest stones such as granite, gneis and basalt. For professionals who expect MORE !

330 - 500 HP
1.800 - 2.300 mm

Standard features

- + Complete rotor armouring for extreme operations
- + 2 hydraulically adjustable crushing stages, interchangeable
- + Crushing chamber armoured with replaceable HARDOX plates
- + Carbide-tipped special tools
- + Extra-large rushing and mixing chamber for more evenly results
- + Overlapping tool arrangement
- + Less wear on the tool holders
- + 3-Point linkage KAT 4
- + Drive shaft

Technical details

	1800	2000	2200
Number of tools - pcs.	29+41	41+24	41+24
Power requirement	min. 330 - 500 HP		
PTO Drive rpm	540 750 1.000		
Drive double sided	high-performance drive belts		
Dead weight approx.	8.000 kg	9.000 kg	10.000 kg
Working width	1.800 mm	2.100 mm	2.300 mm
Overall width	2.400 mm	2.700 mm	2.900 mm
Working depth	max. 500 mm		
Crushing stage	hydr. adjustable 10 - 200 mm		

Special equipment

- o Trailing axle and drawbar (1800)
- o Water injection system incl. pump and electronic volume regulation
- o Special paint according to RAL specification
- o Water injection system excl. pump with spray boom
- o articulated drawbar
